

CLAIM REPEAL OF TOLL EXEMPTIONS

By Associated Press.
Washington, D. C., March 26.—President Wilson declared today that with the united protest of the South American press, the opinion of the entire world was unanimously in favor of the repeal of Panama tolls.

By Associated Press.
Washington, March 26.—The Panama Canal Toll bill was obstructed in the House today by parliamentary situations rich in motions, roll calls, demands for quorums, and all agencies of delay at the command of the opposition.

Just when the rules committee agreed upon arrangements to parcel out 20 hours for debate between the contending factions, and the first skirmish was about to start, the river and harbor bill, then the only obstruction to the repeals bill, was temporarily displayed and a conference report was inserted.

A threatened filibuster on the conference report prolonged the situation and gave indication that the repeal of tolls might be forced over until tomorrow.

Administration supporters, chafing under delays, got their forces in a

position to take advantage of every opportunity.
Democratic House leaders abandoned the idea of 15 hours debate and agreed to 20 hours. This will probably bring the bill to a vote on Saturday. Soon after the House assembled the time was divided so as to give 10 hours debate to supporters of the repeal, 5 hours to Democrats opposed, 4 to Republicans and 1 to Progressives. There was a passive understanding that on adopting the special rule the time would be more limited than at first supposed and will probably be 2 hours less. This cleared the way for launching the actual fight in today's session. About 100 speakers have prepared and the fight will be the most spectacular since the Democrats came into power. While the House was gathering the first gun was heard in the Senate when Senator Owens delivered a speech supporting President Wilson's contention for repeal.

President Wilson had a conference with congressmen before the House convened. Representative Covington, of Maryland, and Rep. Bell, of Georgia, who are very active in lining up the administrative forces, told him that there would be a majority of 50 for the adoption of the special rule and a majority of from 75 to 100 for the adoption of the repeal.

Diebold Consulates. He exhibited a message from Mexico City, declaring the rebels had not approached Torreón proper, but were still three miles away.

NIGHT OF BATTLE

By Associated Press.
Juarez, Mexico, March 26.—At noon today an unofficial report was received here stating that an intermittent artillery duel was carried on at Gomez Palacio during the night.

AWAITING NEWS FROM HIS SON

By Associated Press.
El Paso, Texas, March 26.—General Louis Terrazas, Sr., is very anxious concerning the fate of his son, Louis, who was reported condemned to die yesterday at Chihuahua, unless he paid 500,000 pesos to the Rebels. No direct word of his fate has been received today.

ARMY RIDES IN REFRIGERATOR

By Associated Press.
Pueblo, Colo., March 26.—A detachment of General Kelley's army of unemployed men, that started from San Francisco to Washington, D. C., arrived in a refrigerator car from Grand Junction. The 150 men were surrounded in the railway yards by the police, who fed them bread and beans. The men were not allowed to leave the railway yards. They plan to leave for Denver later today.

MINERS WANT CAMPGROUND

By Associated Press.
Steubenville, Ohio, March 26.—Officers of the United Mine Workers of America are here today to advise the striking miners of Colliers, W. Va., who were last night driven out

of their camp and across the Ohio River.

Petitions are being prepared for presentation to President Wilson and Governor Hatfield asking federal and state governments to intervene to allow the miners to occupy a camp in West Virginia.

Sheriff Paterson, of Brooks county, has a large force of deputies on duty at the mines.

KANAWHA FIELD WILL BE WORKED

By Associated Press.

Charleston, W. Va., March 26.—Coal operators and miners of the Kanawha field outside of the Cabin Creek district, will meet here tomorrow to consider a working scale for the coming year.

Under the existing agreement operations need not be ceased if a scale is not signed. They provide that even if the operators in Ohio, Indiana, Illinois and Pennsylvania fail to close new agreements the first of next month that the Kanawha district will continue to operate and to send coal to the lakes in readiness for the opening of navigation.

SHEGENOBU IS DRAWING FIRE

By Associated Press.

Tokyo, Japan, March 26.—Efforts are being made to induce the Emperor to designate Count Shegenobu as head of the Japanese cabinet. The conservatives indicate, however, that they will oppose his selection. Those favoring him claim he will be able to found a strong coalition cabinet and create good feeling throughout the empire.

TRUST GIVEN UNTIL MONDAY

New York, March 26.—The four companies into which the tobacco trust was disintegrated by the decree of 1911 were given until next Monday to present a plan for abandoning monopolistic practices which the attorney general considers are in violation of the decree. United States District Attorney Marshall told the attorneys of these companies at a conference that the government intended to put an end to present conditions by injunction or other means, but he promised to postpone action until Monday at the request of the tobacco attorneys.

ANTHONY FIALA

Roosevelt's Companion Who Lost Equipment in Brazil.

The family of Colonel Theodore Roosevelt had received no word directly from him concerning the accident that cost his party at least part of their equipment and specimens collected, but no fears are entertained for the safety of the expedition that is somewhere in the unexplored wilds of central Brazil. Anthony Fiala sent word from Santarem, Brazil, that equipment was lost while crossing a rapid.

BIRRELL AND SEELY

Secretary For Ireland and English Secretary of War.

Above is Augustus Birrell, chief secretary for Ireland, and below is Colonel Seely, English secretary of war. The latter resigned because of the developments following the mobilizing the army to crush the Ulster volunteers organized to fight home rule.

FIELD MARSHAL RESIGNS HIS POST

By Associated Press.

London, March 26.—Field Marshal Sir John French, chief of the Imperial general staff of the British army, tendered his resignation today. The Field Marshal, who was one of the signers of the memorandum to Brigadier General Gough, giving guarantees to army officers that they would not be ordered to fight the Ulster Unionists, regarded the repudiation of the document by the government as a slight on himself. For this reason he resigned.

office of a number of the principal generals of the British army is awaited with deep anxiety by the general public, and in political circles, as it is thought they might take some step that would disrupt the army administration.

In northern Ireland, where the contest between the Nationalists and Unionists has been the cause of so much disturbance, there was no trouble today. Both parties were apparently content to await events in London.

CRISIS IN ARMY OF THE BRITISH

By Associated Press.

London, March 26.—Premier Asquith was brought face to face with a new crisis today when Field Marshal Sir John French, and virtual head of the British army, tendered his resignation, and other leading officers are expected to hand in their papers as a direct outcome of the repudiation of guarantees action. Col. Seely subsequently resigned, but Premier Asquith refused to accept his resignation.

The result of a meeting at the war

IN A MESS

By Associated Press.

London, March 26.—Although it is considered that Premier Asquith has regained the upper hand in Parliament, the government is yet not out of trouble.

It still has to deal with the army officers in Ireland, under new conditions established by the Prime Minister's speech in the House of Commons yesterday, under which Brigadier General Gough expects wholesale resignations and disruption of the army.

It is asserted that as the government has withdrawn the guarantees given by John F. Seely, secretary of war, and Field Marshal, Sir John French, the officers will resign again and, as one said, "this time in earnest."

LOSSES DAMPEN REBELS

By Associated Press.

Juarez, Mexico, March 26.—An atmosphere of pessimistic anxiety enveloped Constitutionalist sympathizers today over the possible fate of General Pancho Villa and 12,000 rebel soldiers, who at last reports were fighting desperately at Gomez Palacio, a suburb of Torreón.

For two days no definite word has been received from the front, and not a courier has crossed the desert from Torreón to Chihuahua. News dispatches from Mexico City last night declared that the war department had issued a bulletin that General Villa is in full retreat. This is not believed in Juarez but it caused the Rebels to searchingly inquire for definite news from the battle field.

ROUTED AGAIN

By Associated Press.

Washington, D. C., March 26.—Rebels once more routed and repulsed at Gomez Palacio with heavy losses while trying to approach Torreón. This message was sent from Mexico City last night and received the Embassy here today.

The state department has a report from El Paso saying that the fate of Gomez Palacio is still undetermined. Other dispatch says there is no indication for the statement that thousands of Americans are in Palo Alto, district of Coahuila, Consul report at Laredo, reports an American boy in Laredo shot in the cheek and fled from the American side.

CAN'T CHIN IT

By Associated Press.

Paso, Texas, March 26.—That the rebels have been repulsed every time they have undertaken to storm the fortifications at Gomez Palacio, the information given out here by the Inspector of Mexican

PLUNGES 40 FEET

By Associated Press.

Dallas, Texas, March 26.—Three were killed and three seriously injured when an auto plunged 40 feet into a ravine near here today. Dr. Samuel Tipton, the driver, and Mrs. Kate M. Loving were crushed to death. William, son of Mrs. Loving, died later of his injuries.

Two women and a man were the other occupants of the car.

DENY STORY OF SHIPWRECK

By Associated Press.

Honolulu, March 26.—The report of the destruction of the Inter-Island steamer, Maui, with the loss of many lives, was said today to be untrue.

A search of several hours today failed to disclose any wreckage of the vessel, which was said to have been blown up off Pearl Harbor last night. It is believed that she is safe.

LATER

Honolulu, March 26.—The inter-island steamship, Maui, reported sunk last night with all hands on board, following an explosion, reported by wireless today off Kairui, that she was safe.

SHE PREPARED

By Associated Press.

Paris, France, March 26.—"Why did you buy the revolver if your object in calling upon Calmette was to talk about some letters which you feared would be published?" asked Henry Bouchard, examining attorney, of Mme. Caillaux today.

"Because I wanted to be prepared for eventualities," she said, "I meant to shoot him and create a scandal," she continued.

LITERACY TEST TO BE DROPPED

By Associated Press.

Washington, March 26.—The president sent Secretary of Labor Wilson as his emissary to the senate committee on education and labor, which now has under consideration the Burnett bill amending the immigration laws, with instructions to that committee that if the "literacy test" clause is not eliminated from the measure executive disapproval will follow.

HOT RECEPTION FOR LOBBYISTS

By Associated Press.

Albany, N. Y., March 26.—The unusual number and boldness of lobbyists around the capitol evoked a protest from several members of the legislature here today.

One member made a speech in which he stated a "church lobbyist" was working openly on the floor. The man accused left the chamber at once.

Later the speaker directed the sergeant-at-arms to eject from the chamber all who attempted to lobby.

OPENS GROCERY ON RAWLING ST.

Jacob Miller has opened a thoroughly stocked grocery on the corner of Rawlings and Delaware streets, and is enjoying a liberal patronage in the neighborhood in which the store was opened.

DEADLY FIND IN SCHOOL HOUSE

By Associated Press.

Springfield, O., March 26.—An infernal machine wrapped in paper was found in the new public high school building, and the case is being investigated by the police, it having been reported by Henry L. Schaefer, president of the board of education. The machine consisted of a small clock, a battery and what is supposed to be a dynamite cartridge.

MISGUIDED BOY DIES

By Associated Press.

Terre Haute, Ind., March 26.—Ernest McWilliams, the 15-year-old boy, who on Tuesday engaged in a forty minute gun battle with the police, and received numerous wounds, died at the hospital today.

QUEEN ELEANOR COMES IN MAY

By Associated Press.

Sophia, Bulgaria, March 26.—Queen Eleanor, reigning queen of Bulgaria, who recently declared her intention to visit the United States, has announced that she will depart from the Bulgarian capital during the third week in May.

She will be the first reigning queen that ever visited the United States.

TRUST DISSOLVED WITHOUT A FIGHT

By Associated Press.

Portland, Ore., March 26.—The so-called Telephone trust, by which the Bell interests dominate the telephone business in Idaho, Washington and Oregon, has been dissolved without a fight, the telephone interests having accepted government demands entered in the Federal court.

TWO MEN KILLED ON THE C. H. & D.

By Associated Press.

A. B. Minks, 40, brakeman, and Ernest Catton, car driver, both instantly killed, were on the train in Dayton, Ohio, when the wheels of the engine and car struck a pile of lumber and were caught.

Poetry For Today

The Failures.
We were busy making money
In the world's great game;
We were "gathering the honey"
When the vision came.
We greeted it with laughter,
Though we frowned upon
"The fools" who followed after.
When the dream had gone!

Oh, we were canny schemers,
So we sold and bought;
And jeered the silly dreamers
And the dream they sought.
We gave but fleeting glances
To that "hare-brained crew,"
For we took no stock in fancies—
Till the dream came true!

So much had gold imbued us,
So had greed been nursed,
We'd let the Best elude us
And we'd kept the Worst;
We long to "do it over"
But we cannot try.
For every dream a rover,
And our dream's gone by!

—Berton Braley in *Colliers*.

Weather Report

Washington, March 26.—Ohio—Cloudy Thursday; Friday—probably rain and colder; brisk south winds.
Illinois—Cloudy Thursday, probably followed by rain and much colder by night; Friday cloudy and colder, moderate to brisk shifting winds.

Deafness Cannot Be Cured.

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

CLUBS MAN GRABS COIN

Vaudeville Artist Assumes the Role of a Bank Robber.

Atlanta, Ga., March 26.—Out of employment and out of money, H. Rynata, 25, a vaudeville actor, went into the Atlanta Savings bank armed with a revolver and a bottle of chloroform and attempted to loot the concern.
Rynata was unmasked, and as he entered he pointed his revolver at J. G. Ross, the bookkeeper, and demanded money. Ross hesitated and the bandit fired at him twice, but the bullets went wild. Rynata then clubbed Ross over the head with the revolver and grabbed a roll of money, said to be \$1,000, and ran.
Drawn by the shots, a great crowd chased the robber, who fired on his pursuers. He was seen to enter a house a mile from the scene of the robbery. The house was surrounded, and when the police entered they found Rynata in bed with his wife, claiming to be sick. The revolver and a bottle of chloroform were found, but not the money. Rynata and his wife were arrested. Rynata is about 25 and his wife about 20. They were married in Denver last year. Rynata claims Chicago as his home. He and his wife have been doing a magic act in vaudeville.

Views of Others

The Agricultural Appropriation.

With a total of but \$18,000,000 the agricultural appropriation bill which passed the House is modest, indeed, when compared with the bills for other departments. Yet it holds in itself the potency of far greater benefit to the country than any other. The army and navy bills are in the nature of national insurance. They are a precaution against loss. The postal bill is mere bookkeeping, as the department practically supports itself. The other bills are absolute expense. Only in the money given the Department of Agriculture does the government invest in something which brings it a positive and a large return.

The tremendous progress agriculture has made the past score of years, as shown by the rapidly advancing total of annual value of farm products, last year reaching almost to the sum of \$10,000,000,000, is largely a result of the work of the Department of Agriculture, presided over so many years by Secretary James Wilson, who held office through three administrations. That department is now better organized and doing better work than ever. Its pioneer days are over. It is going about its work in a systematic way, developing its methods and extending the sphere of its influence. It would be untrue to ascribe all the improvement in agriculture methods and in the character of crops to the department direct. Much of it comes through the activity of the state colleges of agriculture and experiment stations of various kinds. Yet it is only fair to say that all those institutions have practically been an evolution from the work of the Federal Government and are operating in close harmony with it.

It would require a volume to enumerate the new varieties of grain, grasses, fruits, animals, etc., that have been introduced into this country, experimented with practically, adapted, acclimated and finally distributed for general cultivation or keeping on the farms of the country. Another volume might be devoted to listing the study of disease and insect pests and their cure, in which the entire world has been ransacked. Hundreds of millions of dollars are saved the farmers annually because of this work. Another volume might be written about the many activities of the department in the improvement of the conditions of farming and farm life, an activity which is now receiving especial development. There is more praise in this of checking the desertion of the farm than in anything else the department has yet done. If even this much may be accomplished the money appropriated for the department will not be wasted.—St. Louis Globe.

Wyoming mines and oil wells in 1913 had an output valued at \$37,000,000, and live stock gave the state's ranchers revenues totaling more than \$35,000,000.

ARISTOS FLOUR

MINERS WILL STAY ON JOBS

Chicago, March 26.—The policy committee of the United Mine Workers of America agreed on a plan which is expected to maintain industrial peace in the bituminous coal districts of western Pennsylvania, Ohio, Indiana and Illinois. It was settled that the men are to remain at work under the present agreement and adjust the new scale in local district conferences with the employers, abandoning, at least for this year, any attempt to do so in a joint conference of the four states.

The plan of the policy committee will be submitted to a referendum vote of the union. Meanwhile a circular will be sent to the locals bidding them remain at work under the scale in force.

FARM AND GARDEN

SELECTING EGGS FOR HATCHING

"The first consideration in hatching eggs is the selection of the egg itself," says Prof. F. S. Jacoby, of the College of Agriculture, Ohio State University.

"Not every egg is desirable for hatching purposes. If possible, eggs from only the best hens should be used. These may be obtained by the use of trap nests, or by having a small breeding pen separate from the main flock. Eggs for hatching should be put into the incubator or under the hens as soon as possible after being laid. Eggs may be kept ten days or even two weeks if they are kept in a cool, dry place and turned daily. However, the germ is not as strong in an egg two weeks old as in one a day old. The shape and color of the eggs should be considered. Only regular, medium-sized eggs, with a shell in accordance with the breed, will produce healthy vigorous chicks.

"Irregular, round, extremely large or extremely small eggs will not produce the best chicks."

OHIO COLLEGES TO COOPERATE.

Arrangements have been completed by Dean H. C. Price of the College of Agriculture, Ohio State University, for the giving of a five-year arts-agriculture course in cooperation with four other Ohio colleges. Under this plan, the first three years will be spent at the smaller college in the study of arts subjects and the basic science and the last two at the College of Agriculture in the study of agriculture. At the close of the fourth year, the student will receive his B. A. degree from his home institution and at the end of the fifth year he will receive a B. Sci. degree in agriculture from Ohio State University.

This plan of cooperation will benefit both institutions because a greater number of students will be able to take the work if they can attend institutions nearer home and it will relieve the crowded conditions in the College of Agriculture, which have resulted from the great increase in enrollment during the last few years.

The following colleges will assist in giving the courses: Akron College, Akron; German-Wallace College, Berea; Capital University, Columbus; and Antioch College, Yellow Springs.

Officials by Their Attitude on Great Questions Prove They Are Second Rate Men

By the Rev. WAYNE CHANNELL, Methodist Episcopal Clergyman, Germantown, Pa.

THE LOVE OF MONEY IS ONE OF THE GREAT SINS OF MODERN SOCIETY WHICH THE CHURCH MUST ASSAIL IN NO UNCERTAIN TONE. IT MUST MAKE MEN SEE THE HATEFULNESS AND LOATHSOMENESS OF THE GREED FOR GAIN WHICH MAKES MEN SACRIFICE ALL MORAL PRINCIPLE TO WIN.

The government of our great cities and of so many of our states has fallen into the hands of corrupt rings dominated by political and personal considerations, the base line of which is subservience, with all questions of character and intelligence eliminated.

We are weak in that our public men so often prove by their attitude upon great questions that they are SECOND RATE MEN. We see men who claim to be senators, who claim to be statesmen, condescend to mingle in party politics and are the biggest politicians, buying office by promises made to the saloon and other interests to use their power to prevent unfriendly legislation, no matter how much the rights of the people and the needs of the government are assailed. Washington, Webster and Clay would have looked with loathing upon such a character.

UNUSUAL FEATURES IN SUIT TO QUIET TITLE

Jefferson Township Estate Involved
In Suit Filed by Mrs. Sarah C. Smith.

GRANTOR DESTROYED DEED TO THE LAND

Deal Consummated 16 Years Ago Results in Peculiar Situation Which Courts Are Asked to Straighten Out—Deposit of \$1299.15 Made With Clerk of Courts.

One of the most unusual and somewhat complicated cases to be filed in the Fayette county Common Pleas court in recent years is that of Sarah C. Smith, against Sarah J. Gordon, Harriet C. Connor, Joseph H. Smith, John M. Smith and Abel A. Smith, which was filed Wednesday evening.

The plaintiff, who is represented by E. L. Bush and Post and Reid, asks that the title to some 74 acres of land in Jefferson township, be quieted.

Plaintiff states that she owns the land involved, and that the defendants claim an interest in the estate.

Mrs. Smith claims that on September 28, 1898, Milan L. Smith executed a deed, conveying to her the 74 acres of land, at \$45 per acre, and that she gave a mortgage of \$1,000 to the Chillicothe Savings Bank, one to Harriet Connor for \$500 one to John M. Smith for \$471 and one to Wm. L. Smith for \$400 and the remaining \$959 to be paid share and share alike to each of the six children at the death of Milan Smith.

The will was executed and delivered to Harriet Connor, John M. Smith and William L. Smith, the plaintiff claims, and directed the plaintiff to pay the various amounts at the death of the grantor.

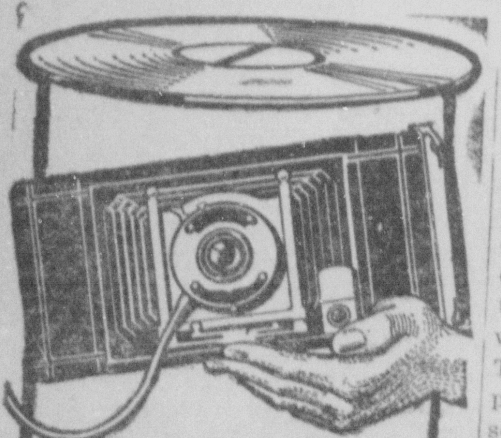

The deed was placed in the hands of Baxter Connor on the 27th day of September, 1898, and was to be given to the plaintiff at the death of Milan Smith.

In September, 1909, Milan Smith demanded the deed, which was surrendered by Baxter Connor, without the knowledge of the plaintiff and was destroyed by Milan Smith.

She alleges that possession of the land was given her at the time the deed was executed, and she has improved it.

On January 18, 1902 defendant John M. Smith transferred his interest or claim, to William Smith, and he transferred the same to the plaintiff.

Milan Smith died on December 30, 1913, and the plaintiff states that

PACKED HOUSE AT AMATEUR PLAY

"Scenes in a Restaurant," drew a packed house to Wesley Chapel last night, and was a great success. It was a huge, laugh from the rise until the fall of the curtain. Almost every line bringing appreciative response from the big audience.

It was under the auspices of the Mite society and under the direction of Miss Esther T. Leland. The sketch was laid, as its name implies, in the typical every-day restaurant, with its humorous signs and menus. An original way of making charges was a feature of the restaurant. A huge pair of scales occupied the center of the stage and as the customers entered they were weighed and as they left they were again weighed and charged so much per pound for their gain in weight.

The restaurant was presided over by Mr. Jones in the person of Mr. Edison Wilson. Too much praise cannot be given the work of Mr. Wilson. He has had many years of experience in the amateur theatrical line and takes his parts with an ease of manner that a professional might envy. He was assisted in his duties by two pretty waitresses, Jennie and Mary, who aided materially in the success of the play. These parts were taken by Frances Blackmore and Jennie Davis.

Special mention should be given Mrs. Harry Rodgers who as Mrs. Slack, deaf and from the country, kept the audience convulsed.

Melwood Hostetler as Hiram Greenback; Emma Smith, as Mandy Clover; James Mitchell as Reuben Grass; Mr. Walter Kearney and Joe Harper, as the two Irishmen; Clyde Davis and Warren Sly, as the actors, filled their roles well. In the course of the program, all the types familiar to the average restaurant appeared in the person of the following: Mr. E. S. Norris, Henry Shoop, Harold and Ralph Householder, Ralph Sly, Harold Hays, Mrs. W. R. Ellison, George Davis, Mrs. James Minshall, Wanetta DeWees, Lillie Boswell.

Much of the success of the play was due to Miss Leland's competent direction.

BLAZE IN CAR CALLS DEPARTMENT

A blaze in a box car in the yards of the Pennsylvania railroad, summoned the fire department at 1:30 Thursday morning, and the fire was soon extinguished with very little loss.

A spark from a passing freight engine is supposed to have caused the blaze, although there is a possibility that tramps started the fire.

DEWEES FEED STORE HAS NEW PROPRIETOR

Mr. Wesley DeWees has disposed of his feed store on West Court St., to Mr. Frank S. Thompson, who assumed charge of the business Thursday morning.

Mr. Thompson expects to increase the stock and conduct the business on a large scale.

THREE CARLOAD CATTLE SHIPMENT

A three carload shipment of extra good cattle was made by Mr. James Ford, from the Ford farms at Milledgeville, to eastern markets, Thursday.

ONLY CHILD BURIED TODAY

Mr. and Mrs. Wash Lough, of near Good Hope, buried their only child, Norman, an unusually bright little boy of three and a half years, in the Greenfield cemetery Thursday.

They have the sympathy of many friends in this community.

FIND HEADQUARTERS OF BAND OF THIEVES

A man named Miley is under arrest in Greenfield, suspected of being connected with a number of crimes in and around Greenfield, and it is alleged that he has been conducting a "fence" where stolen goods have been disposed of.

Stolen articles were found in the man's home, and are said to have been several pieces of silverware taken from the home of J. W. Lough in Bucks township, Ross county. Miley denied that he had any connection with the thieves, and said he had purchased the goods in good faith.

BIG FREIGHT SHIPMENTS TIE-UP RAILROAD YARDS

The C. H. & D. freight yard in this city was again blocked with outgoing freight Wednesday and Thursday, and shipments which the Dahl-Millikan Company and Brownell Packing House were very anxious should go out not later than Wednesday evening, could not be moved until some time Thursday, throwing the shipments a day or more late in reaching the party to whom shipped.

The yards, owing to being inadequate to handle the shipments, became so hopelessly blocked that the east-bound evening freight stopped only long enough to pick up a car load of eggs on the Brownell siding, and the remainder of the outgoing freight which was ready to be moved, was allowed to remain until enough switching could be done to eliminate the blockade.

At the Brownell Packing House and the Dahl-Millikan Wholesale House, it was learned that the conditions of Wednesday and Thursday were not an uncommon occurrence, and that because of lack of proper freight yards in this city, the blockade and consequent delay in shipment of goods was frequent. Of the small mountain of freight ready to be shipped, not a single shipment was moved Wednesday afternoon.

"As a result of the blocked yards," said Mr. Henry Brownell in speaking of the existing conditions at the C. H. & D., "it was necessary to do a much greater amount of switching than if the company had proper freight yards with capacity to handle the business as it should be handled". Mr. Will Campbell, of the Dahl-Millikan Wholesale Company, was of a like opinion.

At the next session of the city council the question of whether or not a franchise will be granted for better shipping facilities will probably be settled.

LAST WILL OF COL. MILLIKAN ADMITTED TO PROBATE TODAY

Bulk of Large Estate Left to His Two Children, While \$500 is Bequeathed to the Grace M. E. Church and a Similar Sum to Library—Instrument is Dated February 18, 1914.

The last will and testament of the late Col. B. H. Millikan was admitted to Probate today.

The document is brief, and with the exception of a legacy made to the Public Library and one to the M. E. church of this city, in the sum of \$500 each, and one or two other bequests to relatives, his entire estate was left to his two children, Mrs. Ruth Westerfield and his son, Jesse H. Millikan.

Jesse H. Millikan, Wm. W. Westerfield and B. A. Schadel were designated as his executors and the will directs that H. H. Sanderson act as attorney in the settlement of said estate.

The will is dated February 18, 1914, and is witnessed by Clara B. McCoy and J. M. Minturn.

DEATH OF MRS. NANCY HAVENS

Mrs. Nancy Havens, one of the older and esteemed residents of Good Hope, died Wednesday noon. Mrs. Havens had been in feeble health for some time. She leaves one daughter and three sons.

Mrs. Ed Pine, of this city, is a niece. The funeral will be held Friday afternoon at 2 o'clock at the residence. Burial in Good Hope cemetery.

Misses Pauline and Lucy Edna Pine spent Wednesday in Columbus to see "The Garden of Allah."

HARVARD LEADS IN CONGRESS.

Has Forty Representatives There, While Yale Has Only Ten.

Cambridge, Mass.—Harvard university takes all the honors in representation in the Sixty-third congress, with Yale running a poor second and Princeton in third place. There are seven graduates of Harvard in the house of representatives, many of whom are from Massachusetts, and there are twenty-three Harvard alumni in the senate.

The total Harvard representation is forty. Yale, which is runner up in the collegiate political competition, has a total of ten, with five alumni in the house and five in the senate. Princeton, with a graduate in the chief magistrate's chair, has two graduates in the house and two in the senate.

Defined. "Pa, what is a knocker?" "A knocker, my boy, is a man who usually finds fault with another man who is doing something better than he could do it himself."—Detroit Free Press.

Secrets. A man can keep the secret of another better than his own. A woman, on the contrary, keeps her own better than that of another.—La Bruyere.

DIVORCE INCREASE IN OHIO.

The appalling increase in the number of divorces in the United States, and more especially Ohio, brings us face to face with a grave situation. Statistics show that divorces have increased something like 80 per cent in 10 years and if figures are to be trusted, the time is coming when the majority of marriages will result in divorce and eventually, according to the present ratio of increase, everyone who marries will later be divorced.

A local minister brought out some of these facts yesterday and he sounded a startling note of warning. He sees the United States pulled down from her high place among the nations and relegated to the decadent kingdoms and republics which have fallen by their own wickedness.

Excepting Japan, there is not a nation in the world that grants so large a proportion of divorces as the United States—not even France.

Now don't take this for an absolute condemnation of divorce, for such it is not. We believe that many divorces are absolutely necessary.

However, our divorce laws are so lax that many persons sue for and obtain their decrees on the most trivial grounds, whereas, if the laws were more stringent the principles would doubtless through the stress of circumstances, patch up their minor differences and proceed in marital happiness.

Eight a week in Mahoning county. Think of that. We doubt if more than 40 marriage licenses are granted in the average week in Mahoning county, making the divorces just a fifth of the marriage licenses.

In Cleveland one out of every four couples married are later divorced.

Something should be done to curb this dreadful increase. We cannot believe that a half or a third of the divorces now granted are deserving. Laws should be passed as early as possible restricting divorce or we fear for our future, not only as a state, but as a nation.—Bellair Leader.

Lots Like That.

A certain famous skyscraper builder said in his New York office the other day apropos of costs and values: "Costs and values get confused because there are so many men who, if sunshine had to be paid for, would swear that gas gave a much more brilliant light."—New York Times.

One For Each Life.

"I want a good revolver," began the determined looking man. "Yes, sir," said the salesman. "Six chambers?" "Why—er—you'd better make it a nine chamber. I want to use it on a cat next door."—London Express.

Finding a Reason.

"It must be great to be a man! One dress suit lasts you for years and years, and a woman must have a new gown for every party." "That's why one dress suit lasts a man for years and years."—Judge.

Obvious.

The dear girls were talking. "Do you really think Jack handsome?" asked the unattached of the engaged girl. "I like his race better than anybody's next to one." "Whose?" "Mine."—Indianapolis News.

In Social Circles

Mr. and Mrs. Frank L. Parrett have frequently extended the hospitality of their beautiful country home, on the Prairie pike, and Wednesday relatives and friends reciprocated by giving them a delightful surprise in honor of their 28th wedding anniversary, and also of Mrs. Parrett's birthday.

Mr. and Mrs. Parrett had no hint of the affair until autos and buggies began to turn in the driveway, but they rose to the occasion splendidly and it was only a short time before the large dining room took on the semblance of a banquet hall.

Long tables were beautifully decorated with scarlet carnations and greenery and the contents of the picnic hampers brought by the guests provided such a feast of delicacies as only experts in the culinary art can serve.

Mr. and Mrs. Os Briggs and Dr. and Mrs. Chas. Swope, of Columbus, were the promoters of the affair and carried it through with complete success. They presented Mr. and Mrs. Parrett with a handsome music cabinet and other friends showered them with flowers.

An exceedingly pretty idea was the presenting of a bride's bouquet to the bride of twenty-eight years ago—a lovely nosegay of white rose buds, sweet peas and fern, tied with big tulle bow, which Mrs. Parrett carried gracefully throughout the afternoon.

The anniversary celebration was throughout one of extraordinary pleasure, participated in by Mr. Parrett's parents, Capt. and Mrs. T. F. Parrett and daughter, Miss Fannie; Mr. and Mrs. Thos. Vesey, Mr. and Mrs. Os Briggs, Dr. and Mrs. Chas. Swope, Mr. and Mrs. W. Briggs, Mr. and Mrs. Louis Parrett and children, Mrs. H. C. Parrett and daughter,

Dorothy; Mr. and Mrs. Val McCoy, Mr. and Mrs. Roy Haglar, Mr. Howard Haglar, Mr. and Mrs. Clate Parrett, Mrs. Parrett's mother, Mrs. C. J. Thompson, Dr. and Mrs. S. A. Marshall, Mr. and Mrs. Carey Parrett, Mr. and Mrs. Robert Greenley, Miss Mary Robinson.

A beautiful St. Patrick's day party although postponed beyond the day of this patron saint, was given by Miss Leola Rodgers at her attractive country home on the Good Hope pike.

Forty young people attended and the evening was made thoroughly delightful by the ingenuity of the attractive young hostess.

St. Patrick's day suggestions were carried out in elaborate decorations and a St. Patrick's day contest provided merry entertainment.

Mrs. Burdell, of Columbus, and Mr. Forest W. Cline, of Bloomingburg, won the prizes.

A delicious two-course luncheon was served.

Among the guests outside of the neighborhood were Mrs. Burdell, Messrs. Harry Baumgardner and Merrill Beck, of Columbus; Mr. Edwin and Miss Ruie Hoppess, of Springfield, Mr. Robert Carson, of Blanche; Misses Marie Booco, Lola Armstrong, Nellie Siebert, of Jeffersonville; Miss Edith Brock, of South Solon; Messrs. Cline, Morris and Pugsley, of Bloomingburg.

The fortnightly kensington of the Woman's Guild of the Presbyterian church was held at the home of Mrs. L. L. Bowman Wednesday afternoon. The ladies were indebted to Messdames Bowman, Frank Jackson, Hershey, Sturgeon, Moots, Brady, C. L. Craig, for an enjoyable afternoon. Dainty refreshments were served.

PERSONAL PARAGRAPHS

Miss Bell Owens is spending several days in Columbus, visiting, and to see "The Garden of Allah" at the Hartman.

Mrs. J. A. Tway and daughter, Miss Elsa, went to Columbus yesterday to be the guests of Mrs. Tway's brother, Judge D. C. Badger and family, and to see "The Garden of Allah."

Messrs. Clate Blue, H. C. Teachnor, S. F. Snider, Marion Wilson and Col. R. T. Scott are attending the Dan Black sale at Lyndon today.

Mr. and Mrs. R. C. Peddicord were in Columbus yesterday to see "The Garden of Allah."

Mrs. W. W. Davies is spending the week with Prof. Davies in Delaware.

Mrs. Jesse Persinger accompanied by her mother, Mrs. Morford, of Sabina, visited in Cincinnati the past two days.

Rev. H. A. Wingard, of Morris-town Ind., is the guest of Rev. and Mrs. Bowman Hostetler, while here to attend the funeral of Mrs. Perry Goodwin.

Mrs. F. A. White is breaking up housekeeping, preparatory to joining Mr. White, who recently left for New Haven, Conn., to accept the position of superintendent of the F. E. Spencer Wholesale Paint House. Mr. and Mrs. Roy G. Mallow are moving today into the White residence, on S. Fayette street. Mrs. White retains a suite of rooms in the spacious home for the accommodation of herself and Mr. White whenever they are temporarily in this city.

Mr. Harry McCall, of Leesburg, who leaves the first of the week for Huntington, W. Va., where he has signed as first baseman of the Huntington Baseball team, is visiting his sister, Miss Stella McCall.

SEWAGE PLANT CASE HEARING ANNOUNCED

Xenia will be given cause to show why the city should not build a new sewer disposal plant, at a meeting of the State Board of Health, to be held Thursday, April 14, in the Hollenden hotel, Cleveland. A communication from Secretary McCampbell of the state board to Mayor Dodds and the city council containing this announcement was received by the mayor Tuesday, and it will be formally presented to council next Friday night.

The communication follows: "At a meeting held March 19, 1914, the state board of health considered a report upon the investigation of the pollution of Shawnee creek made pursuant to a complaint of the board of county commissioners of Greene county, under Section 1249 of the General Code.

"The board found from the report of its chief engineer appointed to investigate this complaint that Shawnee creek at and below the outlet of the sewage treatment plant of Xenia, is polluted by the discharge of improperly treated sewage and that conditions are thereby caused which are detrimental to the health and comfort of the citizens of Greene county in the vicinity of Shawnee creek.

"I was instructed to notify you of the board's findings and to state that the board has fixed 8 p. m., Thursday, April 16, 1914, at the Hollenden hotel, Cleveland, as the time and place, when and where the city of Xenia may be given an opportunity to be heard and to show cause if any exists, why the city should not be required to install a new sewage treatment plant prior to January 1, 1916."—Xenia Republican.

DEATH SUMMONS MRS. A. W. WEST

After Weeks of Serious Illness and Intense Suffering, Wife of Rev. A. W. West Answers Beckoning Hand of Death Today.

At 12 o'clock Thursday the sad word went out from the Fayette hospital that the brave fight made by Mrs. A. W. West, the beloved wife of the pastor of the First Baptist church was ended.

For weeks the shadow of the death angel has been hovering over Mrs. West, and the utmost skill of physicians and nurses has proved unavailing to stay the dread hour.

Few deaths in this community have aroused more general sorrow or elicited more genuine sympathy for the husband and two young daughters, Mary and Pauline, who are left to mourn a lovely young wife and mother.

Although in delicate health for several years, Mrs. West was actively interested in the church work of Rev. West, especially in the work of the missionary society, and her loss will be felt very keenly in the circle of the church.

She was a member of the Brown- ing club and affiliated with outside life as much as her health and time permitted.

Four weeks ago Mrs. West was stricken with a sudden attack of peritonitis and rushed to the hospital, and the intervening weeks have been of gravest anxiety, with an occasional ray of hope, quickly dispelled.

Her parents, Mr. and Mrs. Wells, and sister, Miss Marion Wells, of Tippecanoe City, Ind., have been with her much of the time during the last two weeks.

Arrangements for the funeral have not yet been completed, but it is probable, that it will be held Saturday afternoon at the First Baptist church.

GETTING READY FOR PUBLIC EXHIBITION

Several score of the members of the Women's Physical Culture class are now practicing for the public exhibition to be given at Memorial hall on the night of April 8th, and it is said that the number of exercises which will be features of the program, will exhibit the thoroughness of the work, and the rapid progress made.

A splendid program of events is being prepared, and the members of the class are entering into the exercises with enthusiasm.

FOUR CARS SOLD IN ONE DAY

Fred M. Mark and E. W. Pavey, agents in this county for the Overland automobile, sold four of the 1914 model cars yesterday.

SUPPER WELL PATRONIZED

The supper given by the girls of Mrs. Williams Craig's Sunday School class at Grace church Wednesday night was well patronized and pronounced a decided success in its delicious menu.

The girls had a big candy sale of their home-made candy. Every one enjoyed the sociability of the supper hour.

WOULD CHANGE DIVORCE LAWS

A Youngstown, Ohio, newspaper carries the following article on the Divorce Evil:

"Mahoning county, like a great many other populous counties of the state, is face to face with the ever increasing divorce evil. Judges of the local common pleas court who are daily brought into close contact with the divorce peril, recognize that something should be done to make the marriage contract more binding.

"One judge sees one cause for the evil in numerous statutory grounds in which couples may secure a divorce in Ohio. He is in favor of making the divorce laws more stringent and of cutting down the grounds upon which couples can secure marital freedom.

"Records on file in the clerk of courts' office show that an average of eight divorce cases are filed in the local common pleas court every week. Twenty-four divorce cases are assigned for trial before Judge W. P. Barnum next week.

"One common pleas judge who has

REALLY A BROADSIDE.

Tests on New Ship Shook Teeth in Mouths of Her Crew.

Boston.—With rubber pads between teeth and cotton stuffed into their ears to ease the jar, the crew of the new Argentine Dreadnought Rivadavia stood on tiptoe while twelve twelve-inch guns and six six-inch ones were fired in one broadside from the port side of the giant fighter.

Just to show that she could do it and still float—that was the condition of her acceptance by the Argentine government.

The Rivadavia survived the test and the builders said that every requirement was fulfilled. The Dreadnought was somewhat shaken and some glass was broken, in spite of special copper shutters, but the structure stood firm and another test salvo was fired for good measure.

The Rivadavia is called the heaviest ordnance warship afloat. She will carry 1,300 men and cost \$11,000,000.

A Modest Request.

"Dear teacher," wrote little Edith's mother, "please excuse Edith for not coming to school yesterday. She fell in the mud. By doing the same you will greatly oblige her mother."

SEELY TAKES BLAME

Admits He Made Blunder in His Order to Troops.

RESIGNATION NOT ACCEPTED

Premier Asquith Practically Repudiates the Action of the Secretary of War, but Would Have Him Remain in the Cabinet—Ulster Row Given Another Airing in the British Parliament.

London, March 26.—The government published its promised statement of its dealings with the revolting officers of the Third Cavalry brigade. Between the documents presented and the various statements drawn from the cabinet ministers, the vital facts of the affair were made clear. They reveal a comedy, or tragedy, of errors perpetrated by Colonel Seely, secretary of state for war, and Sir Arthur Paget, commanding the troops in Ireland.

Colonel Seely took all the blame upon his own shoulders. He frankly declared that he had made a great mistake. His written assurance to General Hubert Gough that the government "must retain its right to use all the forces of the crown in Ireland or elsewhere to maintain order and support the civil powers in the ordinary execution of their duty, but has no intention whatever of taking advantage of this right in order to crush political opposition to the policy or the principle of the home rule bill," was given without the knowledge of the cabinet, and contrary to its policy.

The war secretary tendered his resignation to Mr. Asquith, but the premier refused to accept it. The government has withdrawn Colonel Seely's guarantee, according to the statement made by Viscount Morley in the house of lords, and Sir Edward Grey told the house of commons that the government's decision would be made known through General Gough. Thus the situation with respect to General Gough and his 59 comrades who sent in their papers is still in a state of suspense.

The blunder General Paget made appears to have been in giving a practical ultimatum to the officer of the cavalry brigade to say whether they would take active service in Ulster or accept dismissal.

The cabinet framed a general statement of the officers' position and duty under the law, and Colonel Seely freely admitted that his error was in yielding to General Gough's demand for a written assurance that the army would not be used to suppress the Covenanters.

ARMY STUNNED BY REPUDIATION

Dublin, March 26.—News that the British government had repudiated the guarantee given by the army council to the officers of the Irish

Ate Only Raw Eggs Until Mayr Remedy Restored Her Stomach

S. D. Martin and Friend Are Both Saved by Using Wonderful Treatment.

S. D. Martin of Elkton, O., suffered with stomach troubles and difficulties in his digestive tract. He lost weight and his appetite was bad.

He took one dose of Mayr's Wonderful Stomach Remedy and was swiftly restored—with one dose. A month later he sent an order for more, saying:

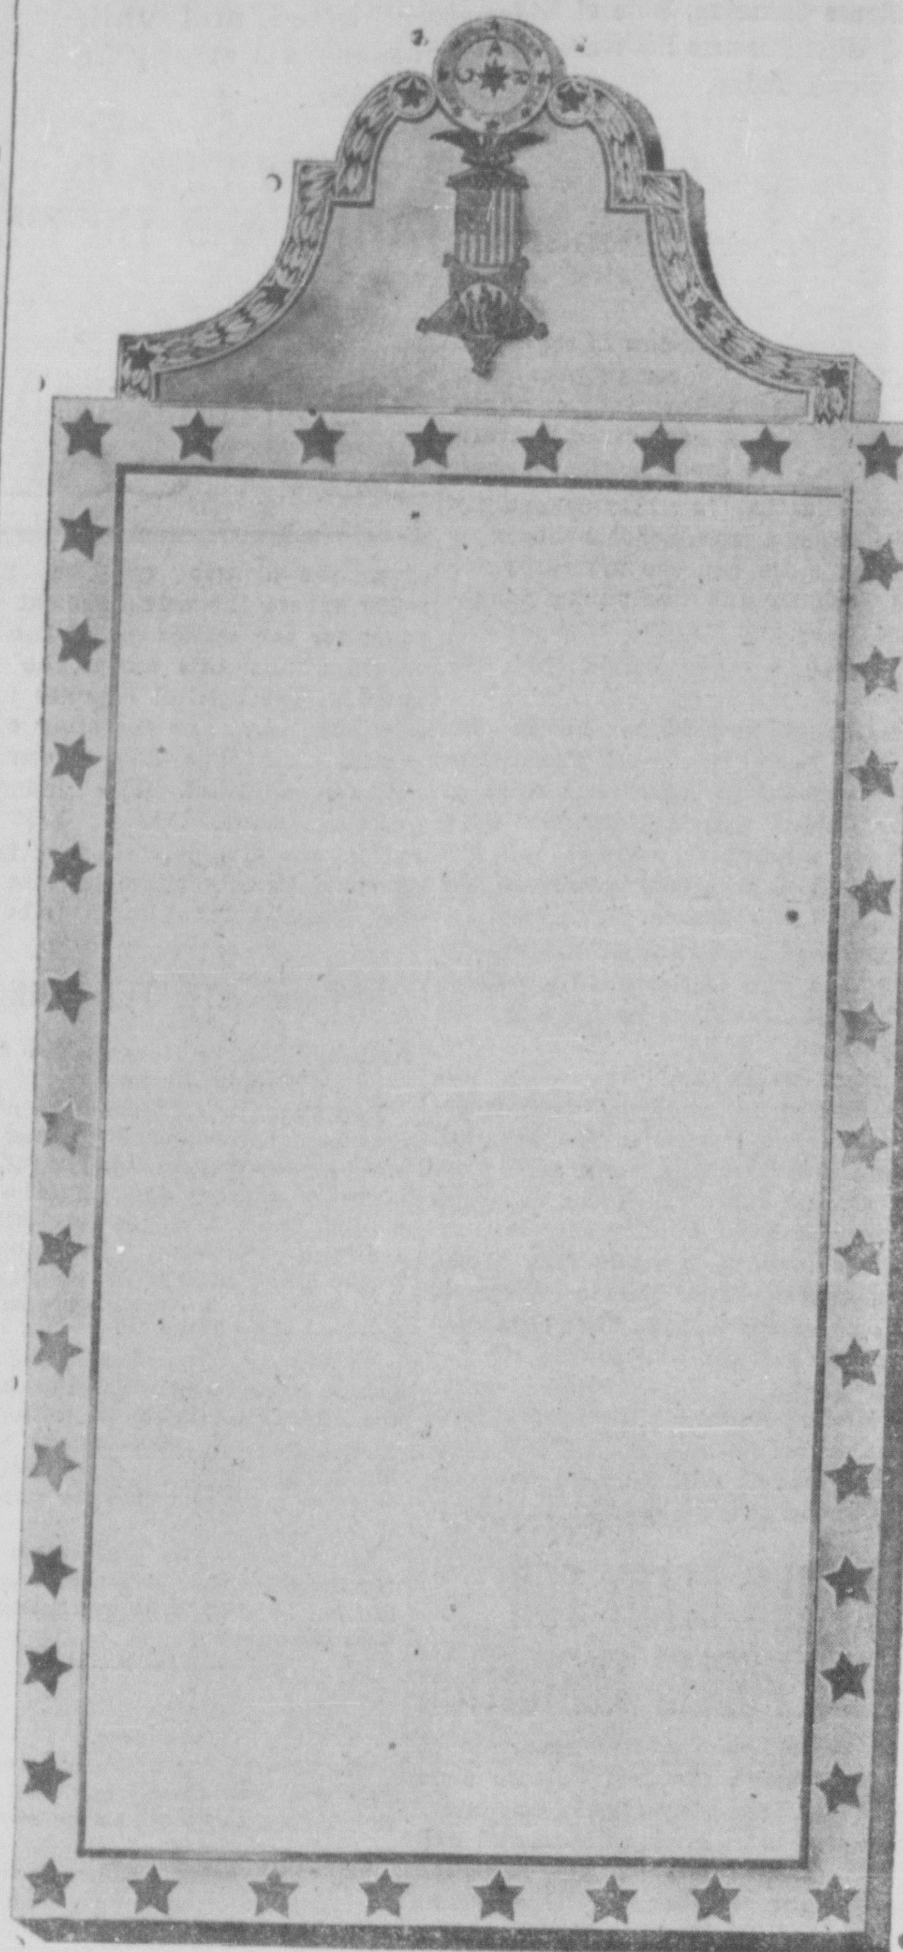

"Since taking your sample I have not been bothered any to speak of with my stomach. Before I had had headaches and dizziness, weak spells, of which I am almost free. I have gained fifteen pounds since taking the one dose. It is not that I need the medicine now that I am sending. I am simply going to take it as a preventive. My wife induced a lady friend to try it. She had been eating only a raw egg or cracker or two, and often could not keep them down. This lady used your remedy and is almost cured her."

Letters like these come from the thousands of users of Mayr's Wonderful Stomach Remedy all over the United States. It is known everywhere. The first dose convinces—no long treatment.

Mayr's Wonderful Stomach Remedy clears the digestive tract of mucoid accretions and poisonous matter. It brings swift relief to sufferers from stomach, liver and bowel trouble. Many declare it has saved them from dangerous operations and many are sure it has saved their lives.

Because of its remarkable success there are many imitators, so be careful. Be sure it's MAYR'S. Go to Blackmer & Tanquary's drug store and ask them about the wonderful results it has accomplished in cases they know—or send to Geo. H. Mayr, Mfg. Chemist, 154-156 Whiting St., Chicago, Ill., for free book on stomach ailments and many grateful letters from people who have been restored. Any druggist can tell you about its wonderful effects.

MOVEMENT FOR MEMORIAL TO LATE COL. B. H. MILLIKAN

Showing Memorial Tablet such as may be utilized in memorial to the Late Col. B. H. Millikan.

A movement is well under way to utilize one of the memorial tablets in Memorial Hall, for a memorial to the late Col. B. H. Millikan, the tablet to bear suitable inscription and the entire tablet be devoted to perpetuating the memory of one who was beloved by all veterans in general.

At the present time there are 37 of the beautiful Italian marble tablets in Memorial hall, and three additional tablets are to be installed. A few of the tablets will be utilized for inscribing the names of old veterans who were missed in the original canvass for names, one will bear the names of the various boards of county commissioners having a part in the Memorial hall erection and equipment, and also the names of the Memorial hall board.

One plan is to inscribe on one tablet the names of the Confederate veterans who have resided in this county.

Within a short time the question of the memorial to Col. Millikan will be fully determined. The plan has been enthusiastically endorsed.

Mr. Morley in the lords that the pledge would be repudiated, as it was given without the knowledge or approval of the government.

It is believed that when Brigadier General Gough learns officially that the pledge has been repudiated, that he will resign forthwith.

Whip Day Is Coming

ON FRIDAY AND SATURDAY, MARCH 27 AND 28, WILL BE

Our Seventh Annual Whip Day.

All receiving the Card and Whip Cracker, who present them at our store on these two days, will receive a Buggy Whip. We will also give the usual liberal discounts on all goods sold or orders received for future delivery on these two days. Two days of Low Prices and on no other days this year will we sell as low as on these two. We want all our customers to receive a Card and Whip Cracker. If you do not receive one, phone us and we will mail you one. Respectfully,

Chas. F. Bonham

ASSAILS WILSON POLICY

Solon Says Huerta Should Have Been Recognized at Outset.

Washington, March 26.—President Wilson's policy of "wait and see" over Mexico was attacked in a speech delivered in the house by Representative Alney of Pennsylvania, a Republican member of the committee on foreign affairs. Mr. Alney's address followed the action of the committee on foreign affairs in tabling the resolution introduced by Mr. Alney calling on the president to forward to the house all information in his possession bearing on conditions in Mexico.

Mr. Alney paid his respects to Villa and the revolutionists in scorching language. He argued that the administration should have recognized Huerta at the outset and, concluding, said: "If war comes with Mexico; if Huerta, spurred by the United States, turns to Japan and the price is Magdalena bay; if the citizens of Germany are murdered in Mexico and we are thereby involved, the responsibility for the dire results rests upon a weak and obstinate policy which has refused the pathway of safe and patriotic precedent."

COXEY WARNS PRES. WILSON

Cleveland, O., March 26.—President Wilson was warned of the departure for Washington of a second Coxey's army, which, it is said, will start April 16 from Massillon, the starting point for the first army 20 years ago. "General" J. S. Coxey of Massillon, the leader, mailed the president a letter telling of his plans, and enclosing a pamphlet of "The Coxey plan of setting the idle to work on market roads and other public improvements."

The army expects to arrive in Washington May 21, Coxey says, to petition the president and congress for measures which will give work to the unemployed. "This will give you 45 days to inform yourself of the object of this second march," Coxey's letter reads, "and to consider the practicability and justice of our demands."

WILLIS WILL AID MOVIE AUTHORS

Bellefontaine, O., March 26.—Representative Frank B. Willis of Ada has listened to the complaints of 10,000 photoplay authors in Ohio and has announced that he soon will introduce a bill in congress to protect motion picture plays by copyright. At present there is no protection for these authors, who say their ideas are stolen in many instances.

HATFIELD ENTERS

Bowling Green, O., March 26.—Announcement of his candidacy for the Republican nomination for congress in the Thirtieth district was made by Charles S. Hatfield, prosecuting attorney of Wood county.

Some of the large Atlantic steamers have 150 firemen each.

SECRET DECIDES

Columbus, O., March 26.—State Liquor License Commissioner J. Howard Secrest announced his candidacy for the Democratic nomination for secretary of state. Though but 43 years old, Secrest is a veteran in politics. For years he has been the dominant factor in Allen county politics.

BANKS SEEKING STATE CHARTERS

Columbus, O., March 26.—Predictions that the new state banking act, which makes private banks subject to supervision and inspection by the state banking department, effective last September, would have the result of causing these private institutions to seek state charters as state banks, are being realized. Though the law has been effective only a little more than six months, no less than 25 private banks have taken out charters as state banks.

POWDER LETS GO

Allentown, Pa., March 26.—Three men were killed and part of the plant of the Pennsylvania-Trojan Powder company, five miles north of this city, was wrecked by an explosion. One of the victims was thrown 400 feet into an adjoining field. Concrete, sheet iron and lumber were showered over an area of 100 feet in diameter.

STARTED FIRE BY POWDER MAGAZINE

Kenvil, N. J., March 26.—Mrs. Mary Korwich of Wharton, who has been missing for several days, was found beside a fire which she had started close to a powder magazine at the Hercules powder works, which if ignited would have shaken northern New Jersey. The police detained the woman until she was later taken home by her two sons. She is eccentric.

REBELS SUFFER DEFEAT

Detachment That Occupied Suburb of Torreon Retires.

FEDERAL ARMY REINFORCED

Fresh Troops Arrived In Nick of Time, Enabling Commander Vasquez to Wrest From Villa Some of the Fruits of Latter's Early Victories—Rebel General Benavides Attacking Torreon Proper.

El Paso, Tex., March 26.—Reinforcements for the federal garrison in Torreon, arriving in the nick of time, enabled General Vasquez, the Huerta commander, to wrest from Villa's rebel army some of the fruits of its victory over him. A detachment of Villa's army was driven from Gomez Palacio and retired to El Verjel, according to a dispatch received in Juarez, said to have been sent by Villa himself. The dispatch did not say Villa's entire army had been repulsed, but that the detachment which had been left in Gomez Palacio during the Torreon attack had been dislodged and forced to retire. The news of the retreat was confirmed by dispatches to United States army officers here.

The federalists are declared to be in full pursuit of the detachment under Villa, who is reported to have been driven 22 miles back northward. The supposition is that when reinforcements arrived to relieve Torreon part of the garrison moved out to Gomez Palacio and made the attack while the others were fighting off Benavides' attack on the city proper from the east.

The last rebel advices from the front were that Benavides had sent a force into the city of Torreon proper. It is stated by the rebels in Juarez that Benavides has two-thirds of the rebel army with him in the attack on Torreon from the east, and that the repulse of the detachment that had been holding Gomez Palacio does not mean anything but the temporary halting of a part of the rebel army.

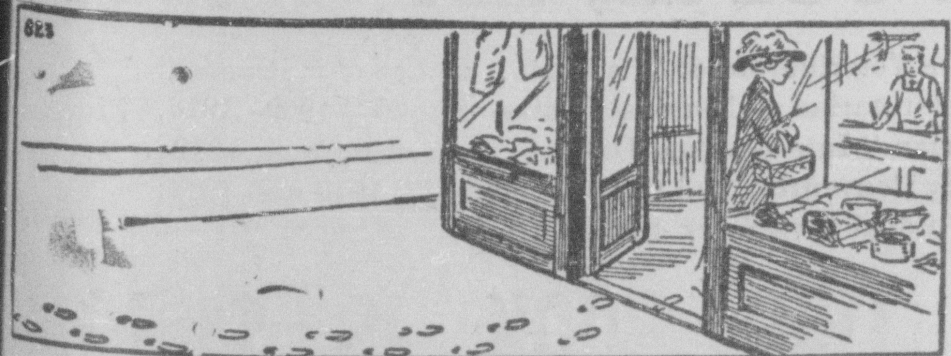

Care Of The Teeth

School authorities join hands with doctors and dentists in the crusade for better care of the teeth on the part of the children. No mother who has the interest of her child at heart will be negligent in this important matter.

We have every thing here that the child needs to keep the teeth clean and healthy. Tooth Brushes, Tooth Powder, Dental Cream, Antiseptic Mouth Wash, and the cost of any of these is very small.

Another One Like That and They'll Run You Out of Town

porary halting of a part of the rebel army.

Several dispatches were given out by the rebels, all to the effect that the rebel attack against Torreon was proving effective. One of the dispatches said that the rebels were in the outskirts of Torreon and that they captured 200 federalists, after killing 68 of a detachment of 300 Huertistas who were surrounded in an improvised fort. The 200 prisoners were later executed, it was admitted in Juarez.

Miguel Diebold, Mexican consul general in El Paso, reported that he had received advices via Saltillo that the federalists had succeeded in driving the rebels back north of Torreon.

From the news that has come from the front, Villa is furiously enraged with himself for leaving the federalists the opening and with his subordinates for permitting themselves to be surprised. He vows that he must retake Gomez Palacio in vindication of his military honor, and that he will be more guarded in his next move against Torreon, but still expresses confidence that he will succeed.

Villa Returns to the Attack.
Juarez, March 26.—Pancho Villa has returned to the attack on Gomez Palacio, furiously bombarding the town with cannon. He summoned some of General Benavides' men to his help from east of Torreon, as he feels his military reputation has suffered and must retake the place and vindicate himself.

CONVICT-MADE GOODS SHUT OUT

Washington, March 26.—The house passed the Hensley bill, forbidding the importation of convict or pauper-made goods. Efforts were made by Republicans and Progressives to amend the measure so as to include in its prohibitions the admission of the products of child labor. Speaker Clark ruled that the amendment was not germane to the measure.

SUSPECTS CAUGHT

Mingo Junction, O., March 26.—Four suspects were arrested here and are being held in connection with the postoffice robbery at Kilgore.

TO THE POINT

Yegmen blew the safe in the post-office at Kilgore, Jefferson county, O., stole \$500 in cash and destroyed a large number of stamps.

After locking guests and the proprietor of the National hotel at New Concord, O., inside the hotel, crackmen blew the postoffice safe in the same building and escaped with \$770 in cash.

John R. Ellis, former pastor of the First Presbyterian church of Bloomington, Ind., and who resigned after his conduct with women had been investigated, was suspended as a minister of the church in the United States.

The 1914 Detroit is up-to-the-minute, electric lights, electric starter, Presto curtains—high grade but medium priced.

GOES TO ROOT OF THE SUBJECT

Class of Construction the Problem Road Builders Face.

EXPERT EXPRESSES HIS VIEWS

Frank D. Lyon, Former Deputy Commissioner of New York Highways Department, Discusses Different Kinds of Construction of Roads, Their Cost, the Cost of Maintenance and Durability—Nothing of More Universal Interest Than the Common Road.

(Contributed.)

Representative Shackelford of Missouri, an ardent advocate of good roads and an enthusiast, in his bill recently passed by the lower house of congress, followed the basic principle which underlies all highway construction, that of common interests—the interests of all the people. There certainly can be no more common interest than the common road, open to all alike. The national government has recognized this universal conviction through taking steps to give federal aid to the states, or subdivisions of states for the improvement of public roads.

At this time a question which is giving concern to road builders and road authorities is that of kind or class of construction. It goes to the very root of the whole subject. It may be taken as granted that there is no such thing as permanent construction. All classes of construction will in time show signs of use, and give evidence of the necessity for repair. The expense of upkeep must enter into all calculations where highways are either to be constructed or improved. The only issue to be determined, therefore, is what character of construction is best suited to present demands, according to locality, and which through a term of years will meet the requirements of the minimum cost.

The United States is woefully behind many of the countries of the old world in the matter of road construction and maintenance, and particularly the latter. This is because the question has not received serious attention until within the past few years. But the people are awakening to the fact that poor roads are an exceedingly poor public investment.

Frank D. Lyon, former deputy commissioner of the New York state department of highways and a leading expert on road construction, is now in Ohio studying conditions. He has given a statement concerning the different kinds of construction, their cost, the cost of maintenance and durability. It contains information which has not heretofore been published, and valuable statistics of which the people at large have no knowledge. He said:

Brick pavements wear out. There are instances, however, wherever such pavements have lasted about 20 years, but which were exceedingly unsatisfactory and disagreeable for the last four or five years of their existence. Brick streets 20 years old are in existence and look as if they might last many years longer, but the travel on them is light.

In Cuyahoga county, O., brick roads have been rebuilt that were not over nine years old. There is nothing to warrant an estimate of the life of an average brick road. At best, it is generally conceded that it will not last more than 20 years.

The average cost of a brick road, 16 feet wide, properly constructed, can not be estimated at much less than \$25,000 per mile. Money being worth 5 per cent interest fixes the interest maintenance at \$1,250 per mile per year. Add to this a low estimated cost for care and attention of \$125 per mile per year, together with a fund that naturally and necessarily must be collected to resurface the brick road. Assuming that the foundation is intact and will last for an indefinite period, a reasonable estimate of the cost of such resurfacing would be from \$10,000 to \$15,000 per mile.

Therefore a fund must be collected of from \$500 to \$700 per mile per year for such resurfacing. It therefore follows that it is fair and proper to estimate the actual cost of the maintenance of the average brick road at from \$1,875 to \$2,075 per mile per year. The above is based on the

supposition that the subgrade has been so thoroughly drained and the base so carefully constructed that it will not be thrown out of position and will not need rebuilding and reshaping.

Concrete construction is in a purely experimental stage. In some localities, notably in Wayne county, Michigan, it is claimed that satisfactory results have been attained. But from reports from many other localities, it is proved conclusively that until proper methods of construction are known, that it seems highly imprudent to adopt this mode of highway construction, excepting for the purpose of meeting some local requirement, to utilize local materials, and for experimental purposes.

The average cost of concrete road, 16 feet wide, can not be estimated at much less than \$18,000 per mile. Money being worth 5 per cent interest fixes the interest maintenance at \$900 per mile per year. To this must be added an expense for care and attention, and also an expense for resurfacing, which is an unknown quantity. It is conceded by many experienced road builders that the cost of maintaining a concrete road through a long term of years would be even greater than that of a brick road. There is no doubt but that concrete for highway construction is extremely desirable in some sections of the country, where such construction should be resorted to on account of the necessity of utilizing local material to the best advantage.

A bituminous macadam road, 16 feet wide, made by the penetration method, based on an experience of about six years, and carrying a heavy traffic, can be built for about \$12,000 per mile. Money being worth 5 per cent interest fixes the interest maintenance at \$600 per mile per year. Add to this a sum not to exceed \$500 per mile per year for proper continuous maintenance, and this means maintenance for an indefinite period. (This last statement or proposition may seem strange to the layman, but it is the conclusion reached by authorities who have given this subject careful thought and study.)

The average cost of an ordinary water-bonded macadam road, 16 feet wide, with a carpet or a bituminous cover, properly constructed, can not be estimated at much less than \$8,000 per mile. Money being worth 5 per cent interest, fixes the interest maintenance at \$400 per mile per year. To which must be added a maintenance charge of an average of about \$250 per mile per year.

The above estimated cost of maintenance of a water-bonded macadam highway is based upon French reports. Because of the fact that there are no authentic records in existence on the maintenance of such roads, of any country or any state, with the exception of France. The French reports cover the maintenance of 24,000 miles of so-called state highways for the year 1912.

The proper maintenance of a water-bonded macadam highway is also continuous maintenance. Continuous maintenance means added strength and a better road from year to year. Eternal vigilance must be the watchword when we speak of maintenance.

The average cost of a gravel road 16 feet wide can not be estimated at much less than about \$4,000 per mile. Apply the interest charges as above, together with an estimate of about \$200 per mile per year for maintenance, and you have another extremely desirable type of construction.

Apply the same ideas as above to the more inexpensive types or classes, such as sand, clay and earth roads. Under proper supervision and direction of proper authorities, problems are presented that are worthy of the consideration of all who are interested in highway improvement.

The following should be given careful consideration, viz: Given two centers of population, which of course are marketing points connected by a public highway, say 30 miles in length, a wise and experienced road builder naturally would take into consideration the units that such highway at various points would be called upon to carry. Should he be mindful of the real science in road building, viz: the construction of the greatest number of miles at the minimum cost, he would recognize the fact that at a point equidistant from these two centers of population, the highway would be called upon to carry the minimum number of units. While at and near the centers of population, the same highway might be called upon to carry the maximum number of units.

Therefore no road builder of experience, and desirous of conserving the best interests of the public at large, would assume to adopt a un-

form plan of construction on this particular road for its entire length. This same principle naturally and necessarily must apply to the construction of any main thoroughfare connecting any principal points.

The vital problem to be solved is that of maintenance, and it is safe to say that no system has ever been inaugurated in any state for systematic maintenance of macadam highways equal to that of France. However, the French plan or system was in existence in New York state for a short period, and proved to be very successful and efficient, until such system was subverted for the purpose of conserving political interests. Many miles of poorly constructed stone roads are classified as macadam highways, and the layman or the eleventh hour experts, as above referred to, are too prone to condemn without a knowledge of the subject.

The French road builders are pronounced in advising the American people to continue the construction of macadam highways, wherever practicable, with the statement that such construction is the greatest added asset in highway work. But in this country, where conditions are somewhat different, the conservative and considerate road builders are advising the construction or improvement of earth and gravel roads wherever and whenever such types or classes of improvement will serve local requirements and where the soil conditions will permit.

All should be careful to inform themselves to the end that in advancing their opinions they are not prone to damage the very interests that they most wish to conserve. Knowledge of this subject is essential, so that public opinion will not be formed of a character that may have a tendency to retard progress in this national movement.

All interests should join hands in a propaganda for a wise and carefully devised plan for better roads.

Improving on Nature.
"Nature's works are marvellous."
"Yes. Isn't it fortunate that she provided every woman with some real hair to pin braids and a switch to?"

PILOTS FOR SHIPS THROUGH CANAL

Captain Rodman, U. S. N., Will
Have Absolute Command.

CAPTAINS MUST ABDICATE.

Official Pilot Will Be Deputy on Every
Vessel That Passes—Engines Will
Be Locked With Special Device From
Entrance to Exit—To Furnish Sup-
plies at Mouth.

Colon, Panama.—That the Panama
canal will not only be ready for com-
mercial shipping in July, but so safe as
to be "fool proof" from a sailor's point
of view, is the assurance by Captain
Hugh Rodman, U. S. N., who will have
entire charge of all the details of put-
ting shipping through.

According to Captain Rodman, the
meteorological conditions are more fa-
vorable for shipping at the entrances of
the Panama canal than at almost
any other port in the world of any-
thing like the importance of Colon and
Balboa. At Colon the completion of
one breakwater and the far advance of
another give a still water entrance to
the canal. The aids to navigation
through Gatun lake have been made so
clear that, as he believes, captains will
find the passage through, day or night,
as safe and easy as a walk down
Broadway and the Culbreth cut passage
as safe as any large river.

All vessels entering the canal will
have a canal pilot, who will take the
ship to an anchorage, from which she
may not move without permission of
Captain Rodman or one of his port cap-
tains, conveyed officially through the
pilot.

All the officials who visit ships must
report to Captain Rodman as head of
the department of canal operation. As
soon as the quarantine officer releases
a ship one of the other canal officials
will go on board.

As soon as a ship moves toward the
canal its wireless and all signal ar-
rangements will be under the immedi-
ate control of the canal authorities,

CAPTAIN HUGH RODMAN.

represented by the canal pilot. In ad-
dition to the wireless and the interna-
tional code signal systems each pilot
will have with him certain "shape" sig-

nals. At three commanding points on
the line canal signal stations have been
provided, so that from one of them
every ship will be practically in sight
during its entire passage.

The engines of a ship will be turned
over to the canal authorities the mo-
ment the vessel ties up to the approach
wall of the canal locks. The engines
will immediately be locked by the can-
al officials by means of a steel chain
and a sealing device. This lock will be
under the constant watch of a canal
guard and an engineer of the ship until
after leaving the locks, when its re-
moval is ordered by the canal pilot on
board.

The pilots have been selected by Cap-
tain Rodman, and for three months he
has been instructing and training them.
Four of them are from the canals of
the great lakes, men who have had ex-
perience taking the large ore ships
through the Sault Ste. Marie canal.
With these will be associated a num-
ber of picked men who are thoroughly
familiar with conditions at the Panama
canal.

At the Pacific entrance to the canal,
Captain Rodman says, ships will find
no tide interference whatever and an
abundance of anchorage room.

When a vessel notifies the canal au-
thorities in advance of its arrival as to
what supplies are needed they will be
put on board in the quickest possible
time.

The law authorizing the furnishing
of supplies to shipping at cost is inter-
preted here to include the making of
repairs at cost, and this also will be
done.

Captain Rodman graduated in 1880,
and all except six years of his service
since has been at sea. He has been
around the world five times and has
commanded ships in nearly every big
port in the world. It was Rodman
whom Admiral Dewey sent to demand
the surrender of the Spanish batteries
on Corregidor island, outside of Manila
bay, and later those at Subig bay.

HEARS LAST RITES BY PHONE.

Telephone Enables Dying Man to At-
tend Wife's Funeral.

Paterson, N. J.—Ex-Judge James
Ingalls, confined to his bed by pneu-
monia, heard by telephone the funeral
services conducted over the body of
his wife in the parlor below.

A bell-like transmitter was installed
in the parlor, and wires led upstairs to
the room where Judge Ingalls lay.
When the Rev. Davis Stewart Ham-
ilton, rector of St. Paul's Episcopal
church, began the service a receiver
was lifted to Judge Ingalls' ear and
was kept there until the last word was
spoken.

Operate For Old Dog Bite.

New York.—Physicians have found it
necessary to operate on Miss Ella P.
Hobby for an infection of the left leg
caused by a dog bite fourteen years
ago. She has undergone twelve opera-
tions. It is believed the last will cure
her, as two inches of the diseased bone
were removed.

Egotism.

"Pa, what's an egotist?"
 "A man who makes a crooked mark
 when he signs his name and thinks
 everybody will know what it means."
 —Chicago Record-Herald.

Dodging the Issue.

She—I'm afraid you couldn't support
 me in the style to which I've been ac-
 customed. He—Well, styles are always
 changing, aren't they?—Exchange.

He lives long that lives well, and
 time misspent is not lived, but lost.—
 Thomas Fuller.

We are very fond of reading others'
 characters, but we do not like to be
 read ourselves.—Rochefoucauld.

SMOKERS' MINDS LOSE

10 PER CENT OF POWER

Tests Show Cigarettes Worst of Nicotine Foes.

New York.—Tobacco smoking causes
 a decrease of 10.5 per cent in mental
 efficiency, according to a series of ex-
 periments by Dr. A. D. Bush.

There was a series of 120 tests on
 each of fifteen men in several different
 psychic fields. The subjects volunteer-
 ing for the experiments all were med-
 ical students ranging in age from twen-
 ty-one to thirty-two years, of varying
 previous experience, from the farm
 laborer to the lifelong student, of di-
 vergent mental capacity, from the fail-
 ure to the honor student and of differ-
 ing habits as to tobacco addiction. The
 subjects were attendants at the Uni-
 versity of Vermont, where Professor
 Bush is an instructor in physiology.

Among his findings are:
 The greatest actual loss was in the
 field of imagery, 22 per cent.

The three greatest losses were in the
 fields of imagery, perception and asso-
 ciation.

The greatest loss in these experi-
 ments occurred with cigarettes.

Nicotine was found in the disillatee
 of all tobacco tested.

Nicotine was not found in the smoke
 of any tobacco except that of cigar-
 ettes, and then only in traces.

Pyridine was found in the smoke of
 all tobaccos tested.

Pyridine is one of the decomposition
 products of nicotine, the latter being
 almost twenty times as poisonous as
 pyridine, so far as its action on the
 human body is concerned.

This was the first extensive investi-
 gation of the mental effect of smoking.
 The recent tests at Columbia univer-
 sity and elsewhere were chiefly for the
 physical effects on students in athletic
 training.

The negro teamster had been arrest-
 ed for using his whip too freely on the
 public street.

"You are charged with cruelty to ani-
 mals," said the judge. "How do you
 plead?"

"Why, judge," answered the prisoner,
 "I wadn't croot to no animals. Them
 beasts dat I wuz lickin' war mewls."
 —Buffalo Express.

The Echo.
 Willie—Paw, was Echo a woman?
 Paw—Yes, my son. Echo always has
 the last word.

Pugilistic English.
 The teacher was instructing the class
 in the rudiments of the English lan-
 guage.

"John," she said, "make a sentence
 using the word 'indisposition.'"

John, who was evidently of a pug-
 ilistic turn of mind, assumed an ag-
 gressive pose and announced:

"When youse wants to fight you
 stands in dis position."—Youth's Com-
 panion.

Capital.
 "Let me illustrate the difference be-
 tween capital and labor," said the rich
 uncle to the impecunious nephew.

"Suppose I give you £5?"

"That's capital," replied the nephew,
 extending his hand for the money.—
 London Telegraph.

Same Weakness.
 "How do you like your new teacher,
 Tommy?" asked a visitor.

"I don't like her at all," replied the
 little fellow. "She's just as fussy as
 my mother is."—Chicago News.

No man can possibly improve in any
 company for which he has not respect
 enough to be under some degree of re-
 straint.—Chesterfield.

A Different Animal.
 In the census office at Washington
 acts against the law are recorded un-
 der a few mala heads, such as murder,
 burglary, etc. A lady who was work-
 ing there ran across the crime, "Run-
 ning a Blind Tiger." After a puzzled
 moment she placed it under the list,
 "Cruelty to Animals."—Lippincott's.

His Commission.
 English Guide (showing places of in-
 terest)—It was in this very room, sir,
 that Wellington received his first com-
 mission. American Tourist—Indeed?
 And how much commission did he get?
 —Boston Transcript.

TRY TO BE CHEERFUL.

Cheerfulness, like other good
 qualities, can be developed and in-
 creased, and whoever omits its cul-
 ture neglects an important duty to
 himself and to society. The fact
 that few men can do their best work
 or think their best thoughts unless a
 cheerful spirit animates them should
 be sufficient reason for setting in
 motion every cause which produces
 such a spirit.

Lobsters.
 Lobsters have a great dread of thun-
 der and when peals are very loud will
 swim to deeper water.

Dr. David Roberts Practical Home Veterinarian!

A book of 184 pages, profusely illustrated, containing
 much valuable information on the care and treatment of

CATTLE, HORSES, SWINE SHEEP AND POULTRY

AND A REVIEW IN ALPHABETICAL ORDER OF THE

Diseases To Which They Are Subject

TOGETHER WITH THE

Causes and Symptoms

and the most efficient treatments and remedies for each. Also, illustra-
 tions of model dairy barns, different breeds of Cattle and Horses, and
 modern methods of administering treatment.

WRITTEN AND COMPILED BY

David Roberts, D. V. S.

Of Waukesha, Wis., former State Veterinarian of Wisconsin, author of "Practical
 Home Veterinarian," official veterinarian "National Dairy Show"—1909, 1910,
 1911 and 1912; official veterinarian "International Dairy Show," 1911 and 1912;
 official veterinarian "Iowa Dairy Convention and Cattle Congress" 1910 and 1912;
 official veterinarian "American Royal Live Stock Show" 1908.
